 Total for State Fund\$345,288 60

The estimated receipts for the General School Fund.\$238,500 00
 For the School Fund 16,500 00
 Aggregate.\$600,288 60

The estimated probable charges for the year are:

For the State Fund\$294,420 00
 Leaving a probable balance in the State Fund on the 30th day of September,
 1882, of.\$ 50,868 60

It is shown by the foregoing statement that the estimated amount

in the State Fund which will be subject to appropriation during the year ending September 30, 1881, is very little in excess of the estimated amount required to be expended during that year. The large expenditures for criminal charges and for the support of lunatics in jails, and the appropriations for extraordinary purposes made at the last session of the Legislature, have caused the disbursement, during the two years ending respectively September 30, 1879, and September 30, 1880, of so much of the revenue that the balance left in the Treasury at the beginning of the present fiscal year is quite small.

As the estimates of receipts and disbursements for the years 1881 and 1882 have been closely made, it is evident that great care should be exercised in fixing the appropriations for those years.

RAILROAD TAXES.

Under the authority of an act of the Legislature, passed at the last session, the Commissioners for the Assessment of Railroad Property assessed the value of the property of the Chesapeake and Ohio Railway Company. Upon the valuation of the Commissioners the Company was charged with State, county and district taxes for the year 1879 amounting in the aggregate to \$27,927.40. This Company, claiming to be exempt from taxation, refused to pay the amount or any part thereof, and obtained an injunction from Hon. Joseph Smith, Judge of the Seventh Judicial Circuit, restraining the Auditor from proceeding in any manner to enforce the collection of the taxes so assessed. The cause was argued before Judge Melvin and submitted some time since, but no decision has yet been rendered.

The Baltimore and Ohio Railroad Company was assessed for the year 1879 with a tax for road purposes upon its property in Marion county, in addition to taxes for State, county and district school and building purposes. The Company refused to make payment of the amount of road tax, but promptly paid all the other taxes assessed upon its property for that year. The road tax was certified to the Sheriff of Marion county for collection, but he was restrained from collecting it by an injunction obtained by the Company. I have recently been informed that the Court decided that no assessment for road purposes could be made upon the property of a railroad company under our present law, and that the injunction was therefore perpetuated.

CRIMINAL CHARGES AND EXPENSES OF LUNATICS.

There has been a very material increase in the amount of claims, which are payable out of the Treasury, for services rendered in criminal causes, and a large portion of the revenue is annually applied to their payment.

The amount appropriated and expended for the support of lunatics in jails has been for several years past very large, and it is estimated that \$17,000 will be required to pay off all claims of this class for the present year. For the year ending September 30, 1882, a small appropriation will be required for this purpose, as there will soon be provision made for all the insane of the State at the Hospital for the Insane at Weston.

AUDITOR'S REPORT.

STATE DEPOSITORIES.

The banks which are depositories of State funds have, with perhaps one or two exceptions, objected to the payment of four per cent. interest on deposits and have given notice that after some time in January next they will not receive the funds of the State upon the terms prescribed by the present law. It is evident, therefore, that some legislation will be required in order that a safe place of deposit for State funds may be provided.

THIS OFFICE.

The vault room in the Auditor's department is entirely insufficient for the accommodation of all the records of the office, and I have been compelled to keep the land books in cases which are considerably exposed, and which, in case of fire, would, in all probability, be destroyed. As these records are valuable it would be well if the Legislature would authorize some repairs to be made upon a vault which is in the basement under the Auditor's office, and which, with slight expense, could be made a safe place for all records of this kind.

THE REVENUE COLLECTIONS.

The Sheriffs who are now in office, with one or two exceptions, have shown commendable promptness in making their collections of taxes and their payments at the Treasury, as will appear by reference to the "List of Sheriffs in Arrears," which is made a part of this report.

CONCLUSION.

In concluding this report, I desire to acknowledge the courtesy which has always been extended to me by your Excellency and the other executive officers of the State, and to testify to the ability and willingness with which the several clerks in this department have discharged the duties imposed upon them.

Very respectfully,

Your obedient servant,

JOSEPH S. MILLER, *Auditor.*

APPENDIX B.—TABLE 1.

Abstract from the Report of the Clerk of the Supreme Court of Appeals, Showing the Number of Suits Commenced, Pending and Decided, the Number of Days the Court was in Session, and the Average Number of Hours the Court was in Session Each Day During the Years Ending Respectively October 1st, 1879, and October 1st, 1879.

Appeals Decided.....	72
Appeals Dismissed.....	16
Appeals Pending October 1st, 1879.....	307

From September 30th, 1879, to September 30th, 1880.

Appeals Docketed.....	99
Appeals Decided.....	65
Appeals Dismissed.....	18
Appeals Pending October 1st, 1880.....	323
Appeals Refused.....	57
Days in Session.....	208

In each of the above years the Court held three regular and two special terms. The average number of hours per day during which the Court was open in regular term was four; at the special terms the Judges were at bar every day in the preparation of opinions, but the Court was only open for the transaction of business once a week, the weekly sessions averaging two hours each.

The large number of cases pending is explained by the fact that many of them are cases that have been abandoned by the appellants. Some of them have been more than five years upon the docket without any attempt to mature or prosecute them, and there is no provision of law by which the Court may order them stricken from the docket without motion.
